SUBJECT: 2027 Marathon City Budget Message

I respectfully submit the 2027 Annual Budget and Financial Plan for your review and consideration in accordance with Section 65.90 of the Wisconsin Statutes. This budget reflects the Village's commitment to providing quality municipal services while maintaining sound financial management and preparing for future community needs.

The 2027 budget continues the Village's focus on proactive long-term planning. Since adopting the Capital Improvement Plan (CIP) in 2025, the Village Board has worked to identify future infrastructure and equipment needs while developing sustainable funding strategies that reduce reliance on borrowing and help manage future costs.

To support future capital needs, the Village has begun allocating a greater portion of debt service costs to the Debt Levy, allowing General Fund resources to be directed toward capital replacement reserves. As a result, the 2027 budget includes, for the first time, annual contributions of approximately $120,000 to the Street Project Replacement Fund, $57,000 to the Equipment Replacement Fund, and $16,715 to the Fire Department Equipment Replacement Fund. These investments represent an important step toward funding future capital replacement needs through reserves rather than relying solely on debt financing and will help support future street reconstruction, equipment replacement, and Fire Department capital needs.

Looking ahead, 2027 will also serve as the planning year for the Village's next Capital Improvement Plan funding cycle, helping ensure future projects are identified, prioritized, and funded in a responsible manner while preserving the Village's long-term financial stability.

The 2027 budget remains balanced and consistent with Village financial policies and Board priorities. It continues to fund essential municipal services while making strategic investments in infrastructure, equipment replacement, and long-term financial sustainability, ensuring residents continue to receive the high level of service they expect from Marathon City. Thank you to the Village Board, Utility Commission, Department Heads, Employees, and Residents for your continued commitment to Marathon City as we invest in a stronger financial future for our community.

Respectfully Submitted,

Steven A. Cherek

Overview of the Budget Process

The 2027 budget turns the Village Board's direction and community priorities into a practical financial plan—supporting quality services, responsible growth, and long-term stewardship of Village resources. It is truly a team effort, and the 2027 Budget stands as a prime example of collaboration across the organization. It represents the culmination of a three-month process involving strategic direction from the Village Board and Village Administrator, along with dedicated teamwork among staff members and department heads.

KEY PRIORITIES SHAPING THE 2027 BUDGET

- **Maintain essential services**
  Protect reliable core services, including public works, streets and sanitation, and public safety.
- **Support balanced community growth**
  Build on momentum in residential, industrial, and commercial development, supported by infrastructure planning and a new Village Comprehensive Plan.
- **Engage residents and strengthen community**
  Keep residents informed, encourage meaningful public input, and use community feedback to help shape priorities and budget decisions.
- **Invest for the long term**
  Advance the 2025–2029 Capital Improvement Plan and increase annual contributions to capital replacement reserves to prepare for future infrastructure and equipment needs.
- **Promote workforce excellence**
  Attract and retain a high-quality workforce through competitive compensation and benefits, modern equipment and technology, and a culture of strong work ethic, professionalism, and a positive attitude.
- **Practice responsible financial management**
  Balance service needs and strategic investments with affordability, operating discipline, and the Village's financial benchmarks.

HOW THE BUDGET COMES TOGETHER

1. **Board direction**
   Set priorities for services, growth, and long-range goals.
2. **Department input**
   Review operating needs, costs, staffing, and capital requests.
3. **Community engagement**
   Invite resident input and consider community priorities.
4. **Budget review & approval**
   Present a balanced plan for public review and Board consideration.

RESOLUTION NO. 2026-11-16
VILLAGE OF MARATHON CITY
MARATHON COUNTY, WISCONSIN

2027 GENERAL FUND BUDGET & PROPERTY TAX LEVY

WHEREAS, pursuant to Section 65.90 of the Wisconsin Statues, "every municipality shall annually, prior to the determination of the sum to be financed in whole or in part by a general property tax, formulate a budget and hold a public hearing thereon"; and

WHEREAS, a summary of the proposed 2027 General Fund Budget for the Village of Marathon City and a notice of the place and time of a public hearing on the proposed budget were published as required by law; and

WHEREAS, the public hearing on the 2027 General Fund Budget for the Village of Marathon City was held at 5:00 P.M., November 16, 2026; and

WHEREAS, the 2027 General Fund Budget for the Village of Marathon City is attached hereto and includes the general fund summary, the projected revenues, including the general property tax levy, the projected expenditures and the general obligation debt summary.

NOW, THEREFORE, BE IT RESOLVED by the President and the Board of Trustees of the Village of Marathon City that:

Section 1: The 2027 General Fund Budget for the Village of Marathon City is hereby adopted and approved with the total projected revenues of $1,905,426.70, total projected expenditures of 1,905,426.70 with $560.59 projected contribution to the general fund reserve. There is projected to be $857,230.95 reserves ($766,421.64 General Fund, $90,809.31 CIP Fund) for working cash and future capital purchases as of December 31, 2027 year end.

Section 2: There is hereby levied local property taxes of $1,032,465 ($907,465 General Levy, $125,000 Debt Levy) as set in the Village budgets, equaling $5.04 per thousand dollars of property value as returned by the Village's assessor in the year 2026.

Section 3: The Village Clerk / Administrator is authorized and directed to spread this property tax levy upon the current tax roll of the Village of Marathon City.

Passed and approved this 16th day of November, 2026.

2027 General Fund Overview – Revenues $1,905,426.70

General Fund revenues for 2027 are projected to increase by $20,727.24 (1.10%) compared to the 2026 budget. This modest increase is primarily attributable to changes in intergovernmental revenues, general tax levy and the allocation of interest earnings

Key revenue changes include:

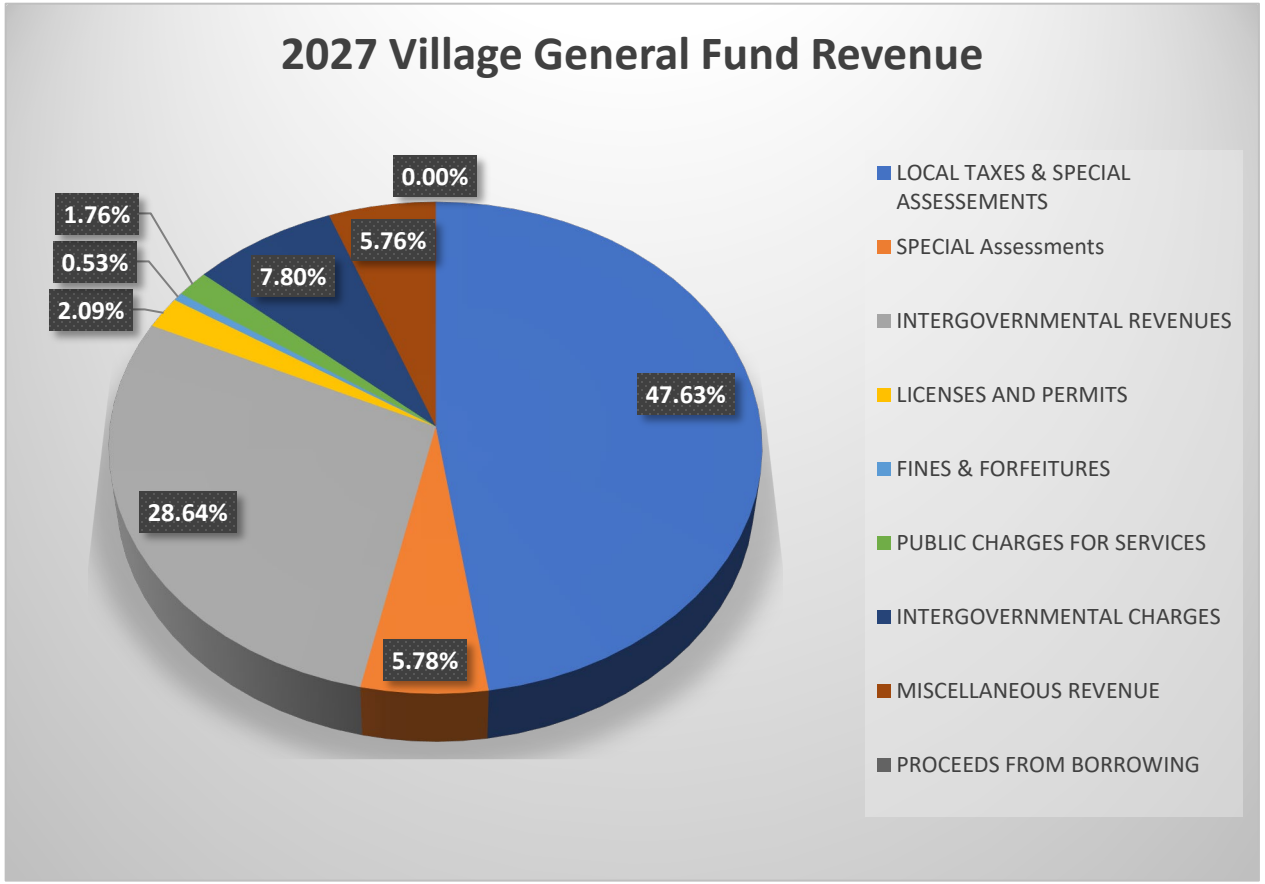

- Intergovernmental Revenues: Increase of $16,203.34, primarily driven by an increase in State Transportation Aid.
- General Fund Taxes: Increase of $9,084, driven by prior year's net new construction rate increase.
- Miscellaneous Revenue: Decrease of $21,900, primarily due to changes in how interest earnings are allocated among Village funds.

The General Fund continues to rely primarily on local property taxes and state aid (intergovernmental revenues), which together account for approximately 76% of total revenues. Other revenue sources include licenses and permits, intergovernmental charges (such as fire service contracts), miscellaneous revenues (including interest earnings), and fines and forfeitures. See the accompanying charts for a breakdown of revenue sources.

Long-Term Financial Planning and Revenue Allocation

Following the adoption of the 2025–2029 Capital Improvement Plan in 2025 and the approval of the Equipment Replacement Funding Plan in 2026, the Village has continued to strengthen its approach to long-term capital planning. As part of these efforts, proceeds from borrowing are no longer budgeted as a General Fund revenue source.

Additionally, interest earnings are now allocated to the respective funds based on their share of the Village's monthly cash reserves. This approach ensures that investment earnings are credited to the funds where the underlying resources reside, including the Utility Fund. As a result, interest earnings previously reflected in General Fund revenues are now distributed among the appropriate funds, contributing to the decrease in projected miscellaneous revenue.

2027 General Fund – Local Taxes $948,381, Village Tax Levy $1,032,465

The Village's total 2027 tax levy is $1,032,465, consisting of a $907,465 General Fund levy and a $125,000 Debt Levy. Based on 2026 assessed values, the combined levy equates to a Village tax rate of approximately $5.04 per $1,000 of assessed value. This represents only the Village portion of the property tax bill and does not include taxes levied by Marathon County, Marathon School District, or Northcentral Technical College.

The 2027 General Fund levy increased by $9,084 (1.01%) compared to the 2026 levy of $898,381. Consistent with Wisconsin levy limits, the increase is primarily supported by net new construction growth within the Village.

The 2027 Debt Levy totals $125,000, an increase of $75,000 from the 2026 levy of $50,000. The additional debt levy funding reflects the Village Board's decision to allocate a greater share of debt service costs to the Debt Levy, allowing General Fund resources to be redirected toward long-term capital replacement reserves and future infrastructure needs. This approach supports funding for the Equipment Replacement Fund while also addressing interest allocation adjustments for Utility and TID funds.

Combined, the General Fund Levy and Debt Levy increase the Village's total levy from $948,381 in 2026 to $1,032,465 in 2027, an increase of $84,084 (8.87%). Due to growth in the Village's assessed value base, the impact on the overall Village tax rate is $5.04 per $1,000 of assessed value.

2027 General Fund Overview - Revenues

State Aids – Intergovernmental Revenues ($545,793.74)

Shared Revenue and General Transportation Aid (GTA) are the two largest sources of state aid received by the Village, together accounting for approximately 20.18% of total 2027 General Fund revenues.

For 2027, Intergovernmental Revenues are projected to increase by 3.06%, primarily driven by a $17,429.10 (9.33%) increase in General Transportation Aid. Most other components are projected to remain relatively flat or experience slight decreases.

General Transportation Aid is calculated using a five-year rolling average of local street investment, combined with the funding allocation established in the state's biennial budget. The projected 2027 increase in GTA reflects both the Village's increased investment in street projects over the past five years and additional funding allocated through state legislation for municipal transportation aid payments.

Public Charge for Service – ($33,621.59)

This revenue category reflects fees charged by the Village for services that provide a direct benefit to specific individuals or organizations rather than the public as a whole. Examples include Village Hall and park rentals, special event requests requiring police services, private parking lot street sweeping, wood chipping for property owners, and requested snow and ice removal services.

These charges are generally structured to recover the cost of providing the services, with the goal of operating at or near a break-even level.

For 2027, revenue in this category is projected to increase by $3,835.99, or 12.88%, compared to the 2026 budget. The increase is primarily attributable to a 9% increase in baseball and softball field rental fees, reflecting rising costs associated with maintaining and operating these facilities. Additional revenue growth is anticipated within the Street Department due to an increase in reimbursement requests for services provided to property owners and outside parties.

Cost recovery through user fees remains an important part of the Village's financial strategy. These fees help reduce reliance on General Fund property tax revenues while ensuring that individuals and organizations receiving direct services contribute an equitable share of the associated costs.

The table above compares Wisconsin Shared Revenue payments for Marathon City and neighboring communities, highlighting a significant disparity between the Village and its western Marathon County peers. Addressing this gap is a priority for the Village Board and Administrator as they work to better understand the reasons for the difference and explore potential solutions. It is important to note that changes to the Shared Revenue distribution formula would require changes to Wisconsin state legislation.

2027 General Fund Overview – Expenditures

Proposed 2027 General Fund expenditures total $1,905,426.70, including $560.59 allocated to the General Reserve Fund. This represents a 1.10% increase over 2026, primarily driven by transfers to the Capital Improvement Funds for streets, equipment, and the Fire Department as the Village redirects resources toward long-term infrastructure and equipment replacement.

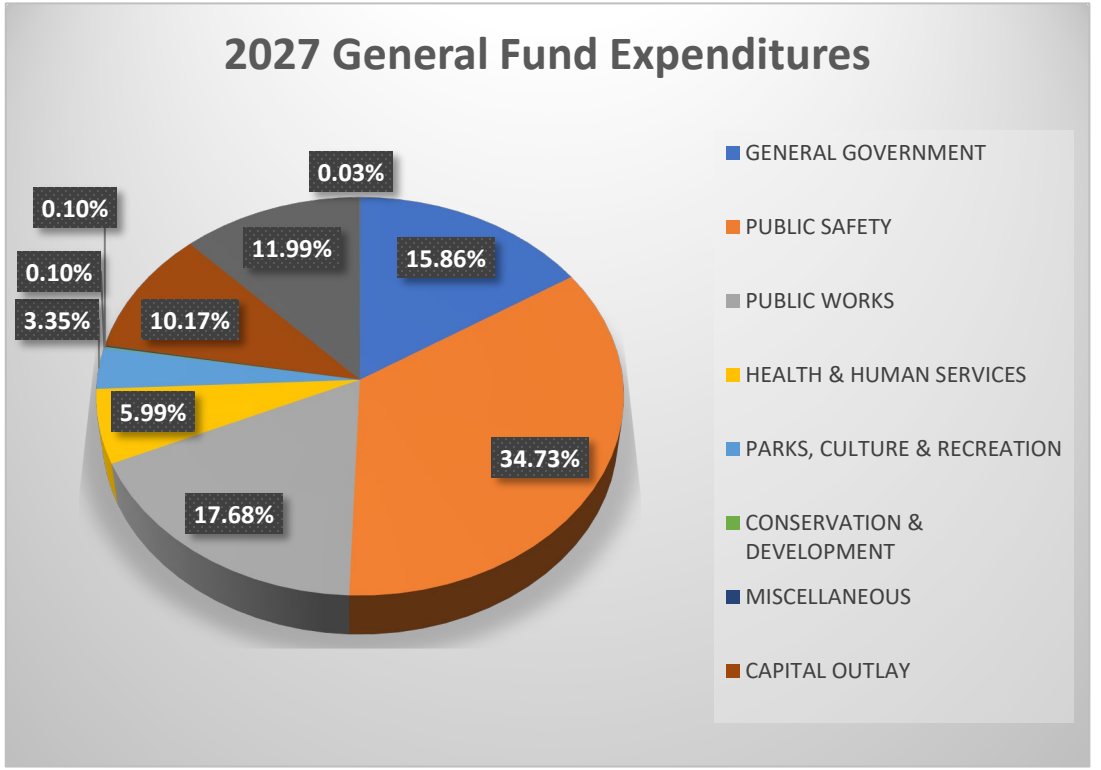

Capital priorities are guided by the Board of Trustees through the Village's Capital Improvement Plan (CIP). The 2027 budget funds previously approved street projects and equipment replacements, with the Board expected to approve the next two years of projects and update the long-term replacement schedule in early 2027.

General Fund operating expenditures are budgeted to increase 0.23% ($3,403.56) over 2026. However, this comparison reflects a $73,230 cost reallocation for fire hydrants and water-main infrastructure, previously paid by the General Fund to the Water Utility and redirected to Water Utility billing in accordance with Wisconsin Public Service Commission requirements. Adjusting for this change, comparable operating expenditures would increase approximately $76,633.56 over 2026.

Employee recruitment and retention were major budget priorities. The 2027 budget includes 6.69% ($45,429.95 total) in total General Fund payroll-related expenditures (including wages and benefits) and was based on the Village's internal wage comparison study. Compensation and benefits total $724,479.58, or 38.02% of all General Fund expenditures. Recommended adjustments include:

- Employee wages: 3.0% increases for all full-time and part-time employees, excluding the Fire Department, plus market adjustments identified through the internal wage study comparing similar positions in similarly sized villages.
- Boards and Commissions: $25.00 more per meeting for appointed boards and commissions; the increase for Village Board members begins with the next election cycle.
- Health insurance: 3.95% premium increase through Team Care (Central States Health Plan).
- Retirement: A slight increase in Wisconsin Retirement System contribution rates.
- Payroll Allocation: Shifting a portion of Administration payroll previously charged to TID 1 and TID 2 back to the General Fund and Utility Fund

The 2027 budget balances long-term capital investment and employee retention with responsible management of Village operating costs and continued delivery of essential services.

2027 General Fund Overview – Expenditures

General Government: $302,149.19

The General Government budget covers the administrative costs of operating the Village, including Village Board salaries, Administration and Clerk personnel, audit and legal services, and land assessments.

For 2027, General Government expenditures are projected to increase by $21,307.99 (7.59%) compared to 2026. As shown in the accompanying chart, the largest increases are in Board salaries and Administration wages, reflecting compensation adjustments for recently hired employees and the reallocation of a portion of administrative payroll from the Tax Increment District (TID) budgets back to the General Fund.

Insurance and Bonds expenditures increased, primarily due to adjustments to the allocation of insurance costs among departments. The prior-year budget used estimated amounts during the transition to the League of Wisconsin Municipalities Mutual Insurance Company, and the 2027 budget reflects a more accurate distribution.

Pending Village Board approval through the next two-year Capital Improvement Plan (CIP) funding cycle, 2027 marks the scheduled eighth year of service for the Police Department's 2019 Dodge Durango, making it due for replacement under the Village's vehicle replacement schedule.

Public Safety: $661,823.29, decrease of 5.57%

The Public Safety budget includes expenditures for the Village Police Department, Fire Protection, and Emergency Medical Services (EMS)

Overall Public Safety expenditures are projected to decrease 5.57% in 2027, largely due to the reallocation of fire hydrant and water-main infrastructure charges from the General Fund to Water Utility billing (Hydrant Rental), as explained earlier in this report. This change in how the costs are funded accounts for a significant portion of the reported total decrease.

Police Department expenditures are projected to increase 7.81%, primarily due to payroll-related costs. Compensation adjustments reflect the findings of the Village's internal wage comparison study, which identified Police Department positions as a priority for wage corrections.

Fire and EMS services are provided through contractual agreements between the Village and surrounding towns, using a shared-cost allocation model. Overall fire protection contract costs are increasing 2%, or $3,711.23, primarily due to replacing the 1990 fire truck with a used 1999 Freightliner truck in 2026. The contracts now include payments to the Fire Department Replacement Fund to support this equipment investment.

2027 General Fund Overview – Expenditures

Public Works budget: $336,953.76, Increase of 6.87%

The Public Works budget includes several changes for 2027, with the majority occurring outside the department's operating budget through the adoption of the CIP Streets & Equipment Replacement Funding Plan. A total of $177,000 is allocated to these reserves, including $120,000 for large street projects and $57,000 for major Village equipment replacement.

Within the operating budget, expenditures are increasing primarily due to payroll-related costs, along with higher Garage Utilities and Operations expenses associated with rising fuel costs.

2026 Village Receive a New Ventrac utility tractor with cab and mower replacing the 1994 Steiner. This was largely funded by a Wisconsin Emergency Management disaster grant.

Parks, Culture & Recreation: 63,817.21, Decrease of 5.44%

Following the County Materials Sports Complex grand opening in spring 2026, several improvements were completed, including parking lot enhancements, pickleball courts, and walking trail lighting.

The 2027 budget reflects higher utility costs at the ball fields, partially offset by user fees introduced in 2026 and increased slightly for 2027.

Despite increased costs at the baseball and softball facilities, overall expenditures are decreasing primarily due to fewer employee hours needed for the Business Park and 400 Block properties following their sale for development.

Library expenditures are decreasing by 6.62% as the Village brings heating and cooling system maintenance in-house for 2027, with the goal of improving service quality and managing costs.

2027 Debt Fund vs Village General Borrowing Capacity

Municipal debt allows the Village to finance major capital investments, such as fire trucks, plow trucks, and street projects. Debt is generally structured to align repayment with the useful life of the asset being financed.

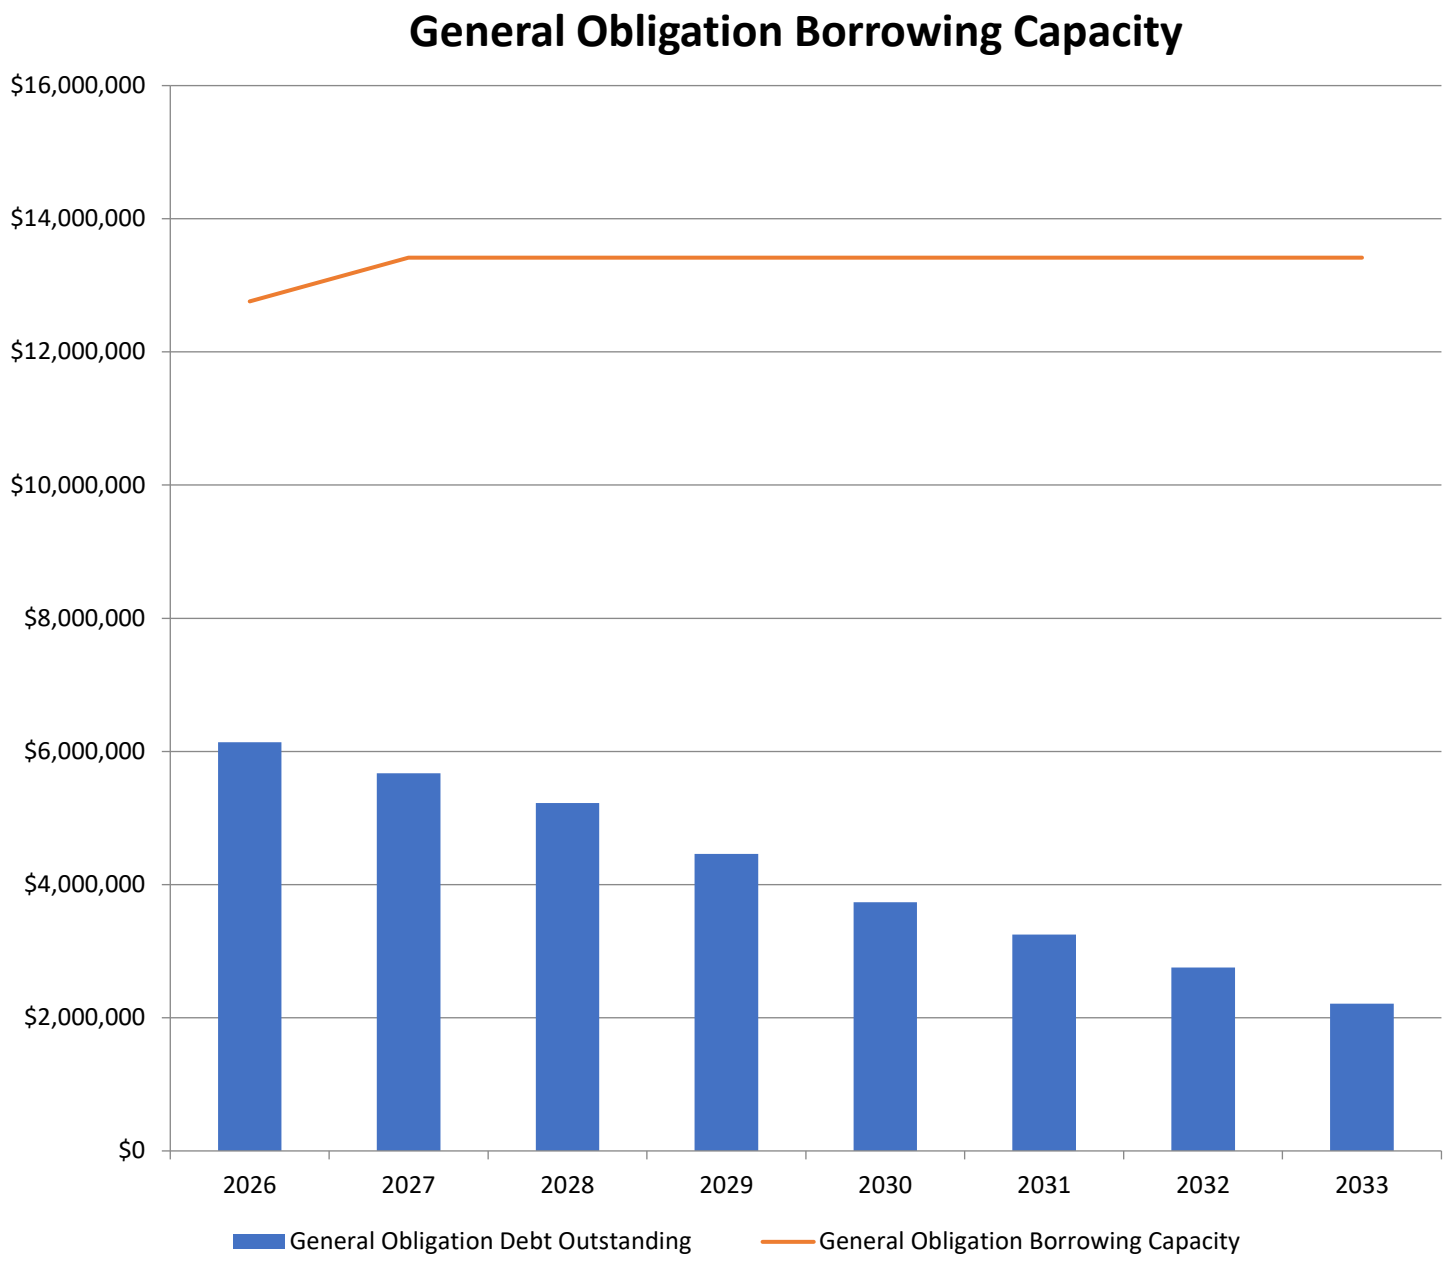

Wisconsin municipalities are subject to a statutory general obligation debt limit of 5% of equalized property value. For 2027, Marathon City's statutory debt limit is $13,415,725.

The Village projects $6,136,724 in outstanding debt at the beginning of 2027, allocated among TID #1, TID #2, and the General Fund. Scheduled 2027 principal payments total $464,107, funded through TID revenues, the General Fund levy, and the Debt Levy.

Based on the current debt schedule, the Village expects to have approximately $7.74 million (58%) of its statutory borrowing capacity available at the end of 2027, assuming no additional borrowing. Existing Village debt is projected to be paid off by 2045 under the current payment schedule.

Although the Village has borrowing capacity available, the Board of Trustees has established guidelines and maximum utilization thresholds to help manage debt responsibly. All Village borrowing requires Board approval.

The 2027 Capital Improvement Plan projects $493,676 in new general obligation borrowing to fund approved street projects ($139,000) and estimated equipment replacements ($354,676). This amount may change following the next two-year CIP funding cycle, anticipated for Board consideration in March 2027.

ESTIMATED BUDGET IMPACT TO HOMEOWNERS

The accompanying tables illustrate the impact of the 2027 Village budget on the Village portion of the property tax bill for homes at various assessed values. They also show changes in assessed values across property classifications.

Unlike the previous year, the Village did not conduct a reassessment in 2026. As a result, assessed values remained relatively stable for most property classifications, without the significant changes experienced during the prior reassessment.

Now, looking at the table to the right, a home assessed at $200,000 paid $914.00 in Village property taxes in 2026. If its assessed value remains at $200,000, the projected 2027 Village tax bill will be $1,008.00, an increase of $94.00. Of this increase, $58.00 is attributable to the higher Debt Levy, which supports capital equipment replacement and scheduled street reconstruction projects.

The proposed 2027 budget balances the cost of providing essential municipal services with the need to invest in the Village's streets, equipment, and long-term infrastructure. While the increased levy affects property owners, these investments help maintain the services and community assets residents rely on.

In conclusion, the 2027 budget reflects the collaborative efforts of Village staff and the policy direction of the Village Board. It is intended to provide responsible financial management while positioning the Village to meet both current service needs and future capital priorities.

Respectfully submitted,

b) Discuss and Approve Extraterritorial Land Division Certified Survey Map - Robert & Ivan Knoeck Properties
Cherek received a CSM for properties in the Town of Cassel fixing an issue of a lot line running thru the center of a house. The property falls in the extraterritorial zone of the Village.
MOTION – Approve Extraterritorial CMS for the Knoeck Properties in the Town of Cassel
Motion made by Paul second by Sorenson. Motion passed by voice vote.

9. REVIEW AND APPROVAL OF BILLS
Trustees questioned the following bill payments:
Check 49923 – HD Excavating and Demo, LLC – tree removal and stump grinding at the library
Check 49930 – VanderWaal Law – legal fees for Flock camera open records request
MOTION – Approve Payment of Bills
Motion made by Ahrens second by Sorenson. Motion passed by voice vote.

10. RESOLUTIONS AND ORDINANCES
a) Discuss and Approve Resolution 2026-11-4 – Approving 2027 Salaries and Wages
Approval of the Union Labor Agreement establishes the 3% wage increase for Village employees. The resolution also establishes the approved Board and Commission wage of $75 per meeting beginning in 2027.
MOTION – Approve Resolution 2026-11-4 Approving 2027 Salaries and Wages
Motion made by Paul second by Parlier. Motion passed by voice vote.

b) Discuss and Approve Resolution U 2026-10-7 – Establishing Hauled Holding Tank Waste Rate and Charges
At the October 28, 2026 Utility meeting, the Commission approved a hauled holding tank waste rate of 85% of Residential, Commercial, Industrial and Public Authority sewer rates. This resolution spells out the details of said rate creation to be effective beginning January 1, 2027.
MOTION – Approve Resolution U2026-10-7 – Establishing Hauled Holding Tank Waste Rate and Charges
Motion made by Paul second by Ahrens. Motion passed by voice vote.

c) Discuss and Approve Amending Ordinance Section 11.5.5 - "Purchase or Possession of Tobacco Product: and Creating Section 11.5.6 "Possession of Controlled Substance"
Police Chief Geske informed Cherek of outdated language in Ordinance 11.5.5. He felt it an amendment is necessary to include e-cigarettes, e-cigars, e-pipes, vape pens or other electronic tobacco products. Further, Geske noted the Village currently has no Ordinance to regulate controlled substance possession by minors.
MOTION – Approve Amendment of Ordinance Sections 11.5.5 – "Purchase or Possession of Tobacco Product" and Creating of Section 11.5.6 – "Possession of Controlled Substance"
Motion made by Paul second by Sorenson. Motion passed by voice vote.

d) Discuss and Approve Ordinance Creating Section 10.2.8 - "Regulation of E-Bikes, E-Scooters, E-Motos, Gas-Powered Scooters and Gas-Powered Bicycles"
The Police Department has been seeing more and more E-bikes, E-scooters, etc around town. The Village does not have an Ordinance in place to regulate use of these devices. Creating Section 10.2.8 would establish rules for use of electronic or gas-powered bicycles and scooters.
MOTION – Approve Creation of Ordinance Section 10.2.8 – "Regulation of E-Bikes, E-Scooters, E-Motos, Gas-Powered Scooters and Gas-Powered Bicycles"
Motion made by Sorenson second by Ahrens. Motion passed by voice vote. Lawrence opposed.
